ADD:2nd&3rd Floor, Building 4, Fu'an Industry Park, No. 90, Dayang Road, Fuyong Town,  
Baoan District, Shenzhen City, Guangdong Province, P.R.C

Model No.: AD-0130(AD-R01)

RK3328 Quad-core chipset with Android 7.1 OS

### Hardware Spec

|                  |                  |                                                                   |
|------------------|------------------|-------------------------------------------------------------------|
| System           | CPU&GPU          | RK3328 Quad-core Cortex-A53, clocked up to 1.5GHz GPU Mali-450MP2 |
|                  | RAM              | 1GB/2GB (optional, default 1GB)                                   |
|                  | Memory           | 8GB/16GB/32GB(optional, default 8GB)                              |
|                  | Operating system | Android 7.1                                                       |
| Network          | WiFi             | 802.11 a/b/g/n_2.4G (802.11 a/b/g/n/ac_5G optional)               |
|                  | Mobile network   | Support 3G, 4G(optional)                                          |
|                  | Bluetooth        | Bluetooth 4.0                                                     |
|                  | Ethernet         | 10M/100M Ethernet                                                 |
| Interactive mode | Interactive mode | Support infrared remote control, support external expansion       |
| Language         |                  | Multi-Language support                                            |

### Interface

|           |                  |                                                        |
|-----------|------------------|--------------------------------------------------------|
| Interface | USB interface*2  | Support USB 2.0*1 & USB 3.0*1                          |
|           | Type-C interface | Type-C interface*1                                     |
|           | DC               | DC power 12V input                                     |
|           | TF card          | Maximum support 64GB                                   |
|           | HDMI             | Support HDMI output Support 4K 60FPS frame rate        |
|           | RJ45             | 10/100M Ethernet port                                  |
|           | Headset          | 3.5mm stereo headphone output                          |
|           | Fiber output     | Support fiber output                                   |
|           | Speaker output   | Support 8 ohm 5W speaker dual channel output interface |
|           | LED light        | Support extended power LED indicator (optional)        |
